Healthy

Total Revenue by Make + Sale Year

Live

BMW leads on revenue; 2014 was the dominant sales year.

Customer Preferences (Body Type)

Live

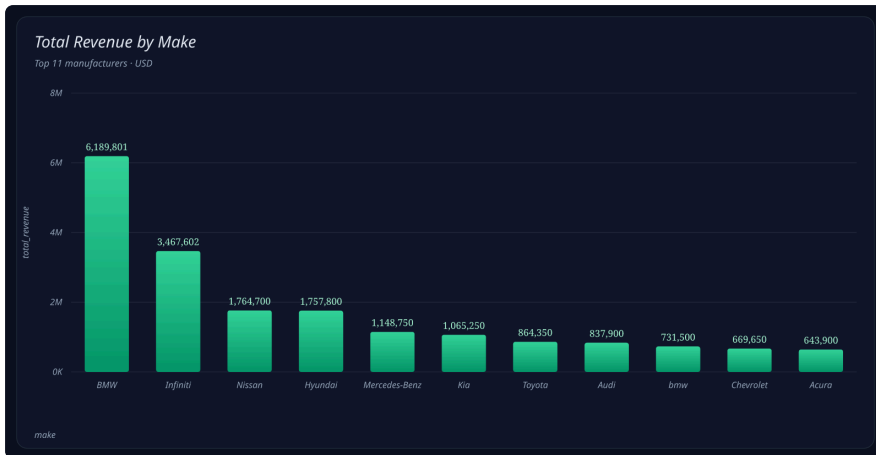

Sedan dominates at 45.1%, followed by SUV (15.5%).

Edit with Lovable

## Total Revenue by Make

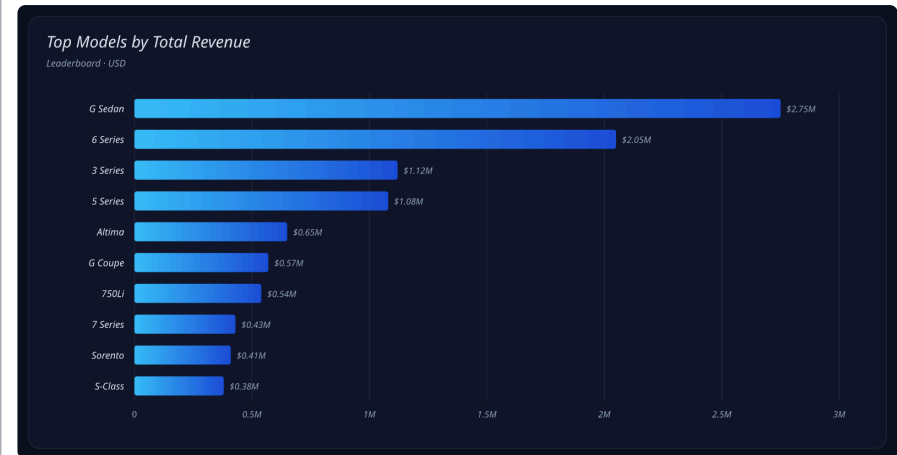

Live

Top 10 manufacturers ranked by revenue contribution.

## Top Models by Revenue

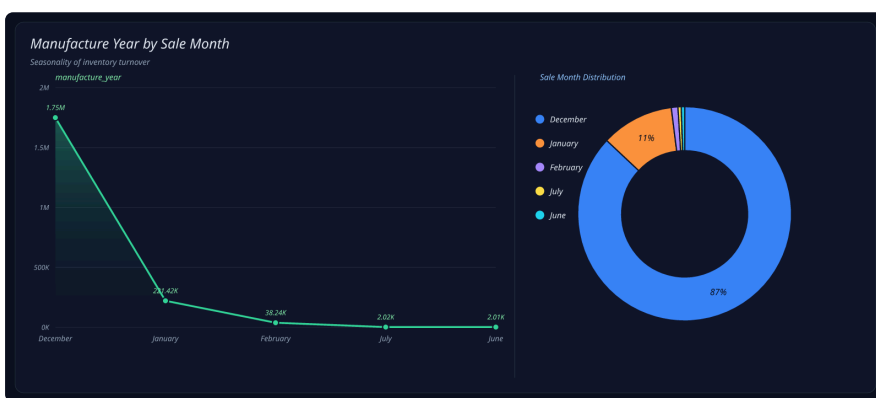

Live

G Sedan and the BMW 6/3/5 Series lead the model leaderboard.

## Manufacture Year by Sale Month

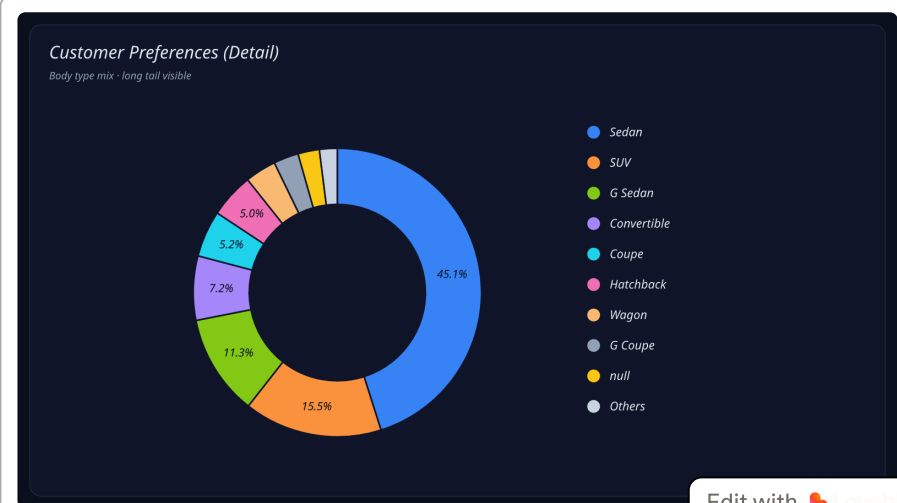

Live

December accounts for ~87% of activity — clear seasonality signal.

## Body Type Preference (Detail)

Live

Edit with Lovable

Convertibles, Coupes and Hatchbacks make up the long tail.

## About this dashboard

This single-pane view consolidates the Bright Motors case study analytics built in Databricks SQL. Every visual is sourced from the cleaned `car_sales_data` mart — covering revenue, profit margin tiers, customer preferences, regional distribution and seasonality. See the project README for the full SQL pipeline and methodology.
